Using avg_monthly_wages_per_paid_employee with locale=en only, return Average Wage and Average Salary Growth Rate (YoY) for 2024-Q4 at Nationality=Saudi and Sex=Female. Use the actual member keys and include raw values, units, period, dataset name, publisher, and the exact query URL. Do not translate keys or calculate a missing measure. This is the English half of a parity test; preserve exactly the same slice as P04-029.

Based on the statistical indicators from the dataset, the table below shows the labor market metrics for Saudi female employees in 2024-Q4:

Date	Nationality	Sex	Average Wage	Average Salary Growth Rate (YoY)	Dataset Name
2024-Q4	Saudi	Female	﷼ 7,983.6	4.38%	Average Monthly Wages per Paid Employee in Main Work by Nationality, Sex, and Age Group - Quarterly

Factual Overview of Raw Data Parameters

- Average Wage (Raw Value): 7983.6 (Unit: ﷼ / Saudi Riyal)
- Average Salary Growth Rate (YoY) (Raw Value): 0.043812512257305425 (Unit: % / 4.38%)
- Period: 2024-Q4
- Nationality Key: Saudi
- Sex Key: Female
- Dataset Name: Average Monthly Wages per Paid Employee in Main Work by Nationality, Sex, and Age Group - Quarterly
- Publisher: General Authority for Statistics
- Query URL: [Data Saudi Explorer](#)

Analysis

According to the official data for the fourth quarter of 2024, the average monthly wage of Saudi female employees reached ﷼ 7,983.6. This income level is accompanied by a positive year-on-year salary growth rate of approximately 4.38%, indicating an upward shift in female compensation compared to the same period in the previous year.

Conclusion

The data demonstrates sustained wage growth for Saudi female professionals during 2024-Q4, with salaries increasing by over 4.3% year-on-year, reflecting active dynamics within the Saudi labor market.

A trend line chart showing the wage trajectory over preceding quarters would highlight the long-term earnings growth for this demographic clearly. Would you like to see it?
